(54) GOLF CLUB HEAD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a golf club head wherein the face part thereof can be deflected more easily, thereby improving the impact resilience thereof without causing the problem such that the strength of the head decreases or the location of the center of gravity is raised.

SOLUTION: This is a cavity or hollow type iron head wherein the central portion of a sole is made thinner than a toe side portion of the sole or a heel side portion of the sole.
